

BM61 Chair

Designed By Børge Mogensen, 1958

The BM61 Chair was designed by Børge Mogensen in 1958, and utilises the inherent properties of solid wood to create a minimal, yet extremely sturdy construction. The structured design is, however, enriched with outstanding comfort and carefully crafted details, such as its exposed finger joints and braided linen webbing. The chair's runner legs make it particularly suitable for use on carpets, but it can also be fitted with gliders.

MODEL

3361 - Linen webbing
