Twine

by Alessandro Stabile

bench

description	*material - finishing*	*size*	sizes are in centimeters

— Twine is a small bench whose six legs are tied together by two brass strips underneath the seat. These divide the space into shapes that mutate according to the observer's point of view.
A third strip ties together the legs embellishing the bench with rich details.

It is designed to offer a temporary seat, embellishing even less popular spaces or passageways.
