Table Lamps

SANTA & COLE

After 50 years, Santa & Cole reedited this classic with improved lighting features. This flexible lamp consists of three parts that can rotate independently to adapt its use for a shelf, desk, or bedside table; it could even be used as a wall light (fittings included). Santa & Cole's edition of the original Tatu is enhanced by applying LED technology. This makes the light intensity easily adjustable, and the light source considerably less hot and longer lasting. It also features a moveable converging lens that allows the user to adjust the focal length.

General description:

Orientable structure manufactured in pure red or white grey glossy ABS plastic.

Applications: table or wall lamp.

Adjustable focal length from 30° to 50°.

Adjustable light intensity 0% to 100%.

Dimmer and switch incorporated into the luminaire.
