

# PAWN

BY MARIE MICHIELSEN

“As a designer, I’m on a continuous quest for beauty”, says Marie Michielssen. “And I find this beauty in two very different styles. In the highly natural, more intuitive style of my Earth collection, on the one hand. But I also like the measured, more robust work for the PAWN and CONSTRUCT collections, on the other”. The PAWN line, meanwhile, has been supplemented with two different side tables, which can also serve as a stool. The tops of the side tables are glazed. A detail that contrasts nicely with the rough stone surface, but which also has a function. Your clothes won’t snag on the rough surface if you decide to use this table as a stool – for which it is perfectly sui-

ted because of its height. “Functionality and comfort are crucial in the design process. To me design is inextricably linked with an experience. And this experience can only be optimal when you get the object’s function right.” The new PAWN side tables are just the right height, meaning they can also be used as a stool. A perfect solution for when you have more visitors than you expected. The tops of Marie Michielssen’s designs have been glazed. A detail that contrasts nicely with the rough stone surface, but which also has a function. Your clothes won’t snag on the rough surface if you decide to use this table as a stool.

MARIE MICHELSEN

Marie Michielssen has designed for Serax for many years. Home designer Marie Michielssen draws her inspiration from daily life. She lets different stimuli lead and inspire her to make new designs. Her impressions are translated into original designs such as tealights, vases, flower pots and canvass bags which invariably come back in a new form in every new collection. Marie also gives old or forgotten materials a new use.
