

Caratteristiche: Il concept che ha dato vita al sistema di sedute Martin trova la sua origine nel viaggio. Martin è un'isola con un piede arretrato rispetto alla base che lo rende sospeso e leggero nonostante le dimensioni generose. Collezione dalle linee eleganti enfatizzate dalla sottile base e da un importante cuscino di seduta in poliuretano a densità differenziata ricoperto dall'innovativa fibra, riciclabile/biodegradabile, PrimaLoft® Bio™ e da schienali e braccioli caratterizzati da imbottiture generose, che aumentano la sensazione di comfort. Il sistema di sedute Martin comprende divani, laterali, angoli e angoli laterali, dormeuse, chaise longue e pouf. A completare la proposta gli angoli terminali obliqui, pezzi speciali che abbinati liberamente agli altri in collezione permettono di ottenere composizioni in linea con il criterio estetico e l'esigenza di comodità del cliente finale. Alcuni moduli sono disponibili con un piano di appoggio in legno listellare impiallacciato in rovere tinto nero. Ogni modulo dispone di cuscini schienali in quantità predefinita in rapporto alle sue dimensioni per offrire il massimo comfort. Il rivestimento è completamente sfoderabile ad eccezione della versione in pelle. **Accessori:** Un ampio e comodo vassoio ed una scatola entrambi realizzati in cuoio, tagliato e cucito al vivo, per essere posizionati sui moduli con il piano in legno, sono disponibili a richiesta e con supplemento. Completa l'offerta degli accessori l'elegante e utile tasca porta oggetti in cuoio da posizionare sui braccioli. Gli accessori in cuoio sono disponibili nei colori caramello e testa di moro. **Struttura:** Fusto in legno massello e multistrato, imbottito in poliuretano espanso indeformabile, a densità differenziata e fibra poliestere. Prerivestimento con velfodera e tela cotone. Piedi in fusione di alluminio verniciato a polveri epossidiche di colore nero. **Imbottiture cuscini:** Cuscini-Schienale in fibra PrimaLoft® Bio™ con inserto in poliuretano indeformabile e ergonomico. I cuscini di seduta sono in poliuretano espanso indeformabile a densità differenziata e fibra PrimaLoft® Bio™. Cuscini decorativi sono completamente in piuma. Tutte le imbottiture sono interamente prerivestite in tela di cotone.

Features: The concept of the Martin seating system has its origins in journey. Martin is an island with a foot, which is set back from the front of the base and raised from the ground and light despite its generous dimensions. Collection with elegant lines emphasized by the thin base and the significant seat cushion made of polyurethane foam with different densities coupled with an innovative fibre, recyclable and biodegradable, PrimaLoft® Bio™; and generously padded backrests and armrests extending the feeling of comfort. The Martin seating system includes sofas, sidepieces, corners, side corners, dormeuse, chaise longues and pouf. Oblique end-corners expand the collection: special pieces that can be freely combined with the other modules allowing composition complying with the esthetical criteria and comfort needs of the end customer. Some modules are available with a wooden top in veneered black-stained oak. Each piece includes a default number of backrest cushions depending on the dimensions of the module in order to offer the best comfort. The cover is fully removable, with the exception of the leather version. **Optional:** Upon request and with up charge, a large and functional tray as well as a box, both in cut and sewed leather, are available to be used with the modules with the wooden top. An elegant utility pocket to be placed on the armrests completes the optional proposal. All leather optional are available in caramel and dark brown colour. **Structure:** Frame made of solid wood and plywood, padded with non-deformable polyurethane foam of different densities and polyester fibre. Pre-cover with Velfodera and cotton fabric. Feet in aluminum cast painted with black epoxy powder. **Cushion padding:** Backrest cushions made of PrimaLoft® Bio™ fibre with insert in non-deformable and ergonomic polyurethane. The seat cushions made of non-deformable polyurethane foam with different densities and coupled with PrimaLoft® Bio™ fibre. All padding are entirely covered in fabric lining.

Eigenschaften: Das Konzept des Sitzsystems Martin hat seinen Ursprung im Reisen. Martin ist eine Insel mit einem von der Basiskante zurückgesetzten Fuß, wodurch es trotz seiner großzügigen Abmessungen schwebend und leicht erscheint. Eine Kollektion mit eleganten Linien, betont durch die dünne Basisplatte und das dicke Sitzkissen aus Polyurethan mit unterschiedlicher Dichte, das mit der innovativen, recycelbaren und biologisch abbaubaren Faser PrimaLoft® Bio™ bezogen ist. Rückenlehnen und Armlehnen, die eine großzügige Polsterung auszeichnet, erhöhen das Gefühl von Komfort. Das Sitzsystem Martin umfasst Sofas, Seiten-, Eck- und Seiteneckelemente, Dormeuse, Chaiselongue und Hocker. Vervollständigt wird das Angebot durch abgeschrägte Eckenelemente, besondere Module, die frei mit den anderen Elementen der Kollektion kombiniert werden können, um Kompositionen zu schaffen, die den ästhetischen Kriterien und dem Komfortbedürfnis des Endkunden entsprechen. Einige Module sind mit einer schwarz gebeizten Tischlerplatte in Eichenholz furnier erhältlich. Jedes Modul verfügt über eine vorbestimmte Anzahl von Rückenkissen, je nach Modulgröße, um maximalen Komfort zu bieten. Die Bezüge sind komplett abnehmbar, außer bei der Lederausführung. **Zubehör:** Auf Anfrage und gegen Aufpreis sind ein großes und praktisches Tablett und eine Box, beide aus Leder, mit Klaffnaht vernäht, erhältlich, die auf die Module mit Holzplatte gestellt werden können. Eine elegante Ledertasche, an den Armlehnen platziert, vervollständigt das optionale Angebot. Das Lederzubehör ist in den Farben Karamell und Dunkelbraun erhältlich. **Struktur:** Korpus aus Massiv- und Mehrschichtholz, gepolstert mit formstabilem Polyurethanschaum mit unterschiedlicher Dichte und Polyesterfaser. Schonbezug mit Velfodera und Baumwollstoff. Füße aus Aluminiumguss, mit schwarzer Epoxid Pulverbeschichtung. **Kissenpolsterung:** Rückenkissen aus PrimaLoft® Bio™-Faser mit formstabilem, ergonomischem Polyurethaneinsatz. Sitzkissen aus formstabilem Polyurethanschaum unterschiedlicher Dichte und PrimaLoft® Bio™-Faser. Die Wurfkissen sind vollständig mit Daunen gefüllt. Alle Polster haben einen Baumwollschonbezug.

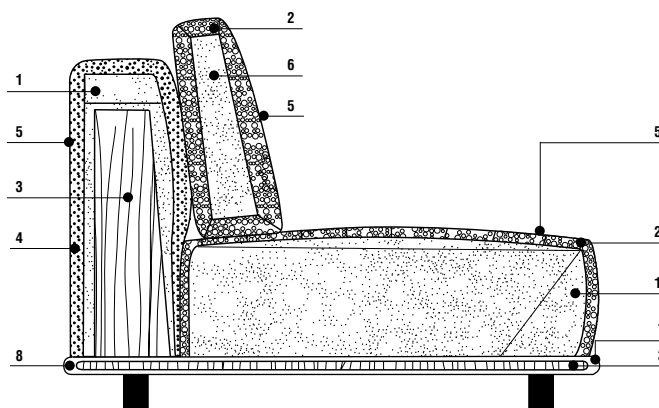

PIEDE FOOT FUSS

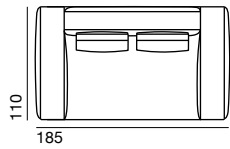

Fusione di alluminio verniciato colore nero.
Painted aluminium cast black.
Lackierter Aluminiumguss Schwarz.

SEZIONE SECTION SEKTION

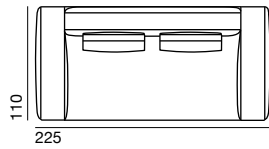

- 1: Poliuretano a densità differenziata.
Differentiated density polyurethane.
Polyurethan unterschiedlicher Dichte.
- 2: Fibra PrimaLoft® Bio™, Fibre PrimaLoft® Bio™.
PrimaLoft® Bio™ - Faser.
- 3: Fusto in legno massello e multistrato.
Frame in solid wood and plywood.
Korpus aus Massivholz, und schichtverleimt.
- 4: Fibra Poliestere, Polyester Fibre, Polyesterfaser.
- 5: Fodera in tela, Fabric lining, Schonbezug.
- 6: Inserto in Poliuretano, Polyurethane Insert.
Kern aus Polyurethan.
- 7: Velfodera, Velfodera, Velfodera.
- 8: Poliuretano, Polyurethane, Polyurethan.
