#### Design By Lievore Altherr Molina

COSMOS, designed by Lievore Altherr Molina, is a pendant collection composed of several lacquered thermoplastic discs suspended at varying heights to create the appearance of satellites orbiting a moon. Their single-material finish invokes the smoothed texture of river rocks, rounded by millennia of natural refinement. With the incorporation of energy-efficient LED technology, completely integrated into the interior of each piece, there is a perfect symbiosis between design and light source. Available in cluster version with two finish combination options. Matte black lacquer canopy.

## Spec sheet

Optional: Extra cable length Min. Quantity, upcharge and extra lead time apply

Finish
